

IMC Club: Mastering the Art of Instrument Navigation

Don't miss this meeting of the Richmond Chapter of the IMC Club! The IMC Club, through its nationwide chapters, provides organized "hangar flying" focused on building proficiency in instrument flying. Safety and proficiency are developed through education and experience. Monthly meetings use real world scenarios to engage our members and allow them to share and build their experience. At this month's meeting we will discuss Real-World Instrument Scenarios and how you can mitigate the risk of your instrument flying. You do not have to be instrument rated to attend.
